7.10 src/test/java/com/example/demo/DemoApplicationTests.java File Reference 25

Index **27**

Chapter 1

Namespace Index

1.1 Namespace List

Here is a list of all namespaces with brief descriptions:

com.example.demo 9
com.example.demo.controller 9
com.example.demo.entity 9
com.example.demo.repository 10
com.example.demo.service 10

Chapter 2

Hierarchical Index

2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

com.example.demo.DemoApplication 11
com.example.demo.entity.Movie 11
com.example.demo.controller.MovieController 12
com.example.demo.service.MovieService 14
com.example.demo.entity.Quote 16
com.example.demo.controller.QuoteController 17
com.example.demo.service.QuoteService 20
JpaRepository
  com.example.demo.repository.MovieRepository 14
  com.example.demo.repository.QuoteRepository 19

Chapter 3

Class Index

3.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

com.example.demo.DemoApplication 11
com.example.demo.entity.Movie 11
com.example.demo.controller.MovieController 12
com.example.demo.repository.MovieRepository 14
com.example.demo.service.MovieService 14
com.example.demo.entity.Quote 16
com.example.demo.controller.QuoteController 17
com.example.demo.repository.QuoteRepository 19
com.example.demo.service.QuoteService 20

Chapter 4

File Index

4.1 File List

Here is a list of all files with brief descriptions:

src/main/java/com/example/demo/DemoApplication.java 23
src/main/java/com/example/demo/controller/MovieController.java 23
src/main/java/com/example/demo/controller/QuoteController.java 23
src/main/java/com/example/demo/entity/Movie.java 24
src/main/java/com/example/demo/entity/Quote.java 24
src/main/java/com/example/demo/repository/MovieRepository.java 24
src/main/java/com/example/demo/repository/QuoteRepository.java 24
src/main/java/com/example/demo/service/MovieService.java 25
src/main/java/com/example/demo/service/QuoteService.java 25
src/test/java/com/example/demo/DemoApplicationTests.java 25

Chapter 5

Namespace Documentation

5.1 Package com.example.demo

Packages

- package controller
- package entity
- package repository
- package service

Classes

- class DemoApplication
- class **DemoApplicationTests**

5.2 Package com.example.demo.controller

Classes

- class MovieController
- class QuoteController

5.3 Package com.example.demo.entity

Classes

- class Movie
- class Quote

5.4 Package com.example.demo.repository

Classes

- interface MovieRepository
- interface QuoteRepository

5.5 Package com.example.demo.service

Classes

- class MovieService
- class QuoteService

Chapter 6

Class Documentation

6.1 com.example.demo.DemoApplication Class Reference

Collaboration diagram for com.example.demo.DemoApplication:

6.2 com.example.demo.entity.Movie Class Reference

Collaboration diagram for com.example.demo.entity.Movie:

Public Member Functions

- void setId (int id)
- int getId ()
- void setTitle (String title)
- String getTitle ()
- void setYear (int year)
- int getYear ()
- String toString ()

6.2.1 Member Function Documentation

6.2.1.1 getId()

```
int com.example.demo.entity.Movie.getId ( )  [inline]
```

Here is the caller graph for this function:

6.2.1.2 getTitle()

```
String com.example.demo.entity.Movie.getTitle ( )  [inline]
```

Here is the caller graph for this function:

6.2.1.3 getYear()

```
int com.example.demo.entity.Movie.getYear ( )  [inline]
```

Here is the caller graph for this function:

6.2.1.4 setId()

```
void com.example.demo.entity.Movie.setId (
            int id )  [inline]
```

6.2.1.5 setTitle()

```
void com.example.demo.entity.Movie.setTitle (
            String title )  [inline]
```

Here is the caller graph for this function:

6.2.1.6 setYear()

```
void com.example.demo.entity.Movie.setYear (
            int year )  [inline]
```

Here is the caller graph for this function:

6.2.1.7 toString()

```
String com.example.demo.entity.Movie.toString ( )  [inline]
```

The documentation for this class was generated from the following file:

- src/main/java/com/example/demo/entity/Movie.java

6.3 com.example.demo.controller.MovieController Class Reference

Collaboration diagram for com.example.demo.controller.MovieController:

Public Member Functions

- Movie addMovie (@RequestBody Movie movie)
- List< Movie > addMovies (@RequestBody List< Movie > movies)
- List< Movie > findAllMovies ()
- Movie findMovieById (@PathVariable int id)
- Movie findMovieByTitle (@PathVariable String title)
- Movie updateMovie (@RequestBody Movie movie)
- String deleteMovie (@PathVariable int id)

6.3.1 Member Function Documentation

6.3.1.1 addMovie()

```
Movie com.example.demo.controller.MovieController.addMovie (
            @RequestBody Movie movie )  [inline]
```

6.3.1.2 addMovies()

```
List< Movie > com.example.demo.controller.MovieController.addMovies (
            @RequestBody List< Movie > movies )  [inline]
```

Here is the call graph for this function:

6.3.1.3 deleteMovie()

```
String com.example.demo.controller.MovieController.deleteMovie (
            @PathVariable int id )  [inline]
```

Here is the call graph for this function:

6.3.1.4 findAllMovies()

```
List< Movie > com.example.demo.controller.MovieController.findAllMovies ( )  [inline]
```

Here is the call graph for this function:

6.3.1.5 findMovieById()

```
Movie com.example.demo.controller.MovieController.findMovieById (
            @PathVariable int id )  [inline]
```

Here is the call graph for this function:

6.3.1.6 findMovieByTitle()

```
Movie com.example.demo.controller.MovieController.findMovieByTitle (
            @PathVariable String title )  [inline]
```

Here is the call graph for this function:

6.3.1.7 updateMovie()

```
Movie com.example.demo.controller.MovieController.updateMovie (
            @RequestBody Movie movie )  [inline]
```

Here is the call graph for this function:

The documentation for this class was generated from the following file:

- src/main/java/com/example/demo/controller/MovieController.java

6.4 com.example.demo.repository.MovieRepository Interface Reference

Inheritance diagram for com.example.demo.repository.MovieRepository:

Collaboration diagram for com.example.demo.repository.MovieRepository:

Public Member Functions

- Movie findByTitle (String name)

6.4.1 Member Function Documentation

6.4.1.1 findByTitle()

```
Movie com.example.demo.repository.MovieRepository.findByTitle (
            String name )
```

The documentation for this interface was generated from the following file:

- src/main/java/com/example/demo/repository/MovieRepository.java

6.5 com.example.demo.service.MovieService Class Reference

Collaboration diagram for com.example.demo.service.MovieService:

Public Member Functions

- Movie saveMovie (Movie Movie)
- List< Movie > saveMovies (List< Movie > Movies)
- List< Movie > getMovies ()
- Movie getMovieById (int id)
- Movie getMovieByTitle (String title)
- List< Quote > findQuotesByMovie (Movie movie)
- String deleteMovie (int id)
- Movie updateMovie (Movie Movie)

6.5.1 Member Function Documentation

6.5.1.1 deleteMovie()

```
String com.example.demo.service.MovieService.deleteMovie (
            int id )  [inline]
```

Here is the caller graph for this function:

6.5.1.2 findQuotesByMovie()

```
List< Quote > com.example.demo.service.MovieService.findQuotesByMovie (
            Movie movie )  [inline]
```

Here is the call graph for this function: Here is the caller graph for this function:

6.5.1.3 getMovieById()

```
Movie com.example.demo.service.MovieService.getMovieById (
            int id )  [inline]
```

Here is the caller graph for this function:

6.5.1.4 getMovieByTitle()

```
Movie com.example.demo.service.MovieService.getMovieByTitle (
            String title )  [inline]
```

Here is the caller graph for this function:

6.5.1.5 getMovies()

```
List< Movie > com.example.demo.service.MovieService.getMovies ( )  [inline]
```

Here is the caller graph for this function:

6.5.1.6 saveMovie()

```
Movie com.example.demo.service.MovieService.saveMovie (
            Movie Movie )  [inline]
```

6.5.1.7 saveMovies()

```
List< Movie > com.example.demo.service.MovieService.saveMovies (
            List< Movie > Movies )  [inline]
```

Here is the caller graph for this function:

6.5.1.8 updateMovie()

```
Movie com.example.demo.service.MovieService.updateMovie (
            Movie Movie )  [inline]
```

Here is the call graph for this function: Here is the caller graph for this function:

The documentation for this class was generated from the following file:

- src/main/java/com/example/demo/service/MovieService.java

6.6 com.example.demo.entity.Quote Class Reference

Collaboration diagram for com.example.demo.entity.Quote:

Public Member Functions

- void setId (int id)
- int getId ()
- void setQuote (String quote)
- String getQuote ()
- void setMovie (Movie movie)
- Movie getMovie ()
- String toString ()

6.6.1 Member Function Documentation

6.6.1.1 getId()

```
int com.example.demo.entity.Quote.getId ( )  [inline]
```

Here is the caller graph for this function:

6.6.1.2 getMovie()

```
Movie com.example.demo.entity.Quote.getMovie ( )  [inline]
```

Here is the caller graph for this function:

6.6.1.3 getQuote()

```
String com.example.demo.entity.Quote.getQuote ( )  [inline]
```

Here is the caller graph for this function:

6.6.1.4 setId()

```
void com.example.demo.entity.Quote.setId (
            int id )  [inline]
```

6.6.1.5 setMovie()

```
void com.example.demo.entity.Quote.setMovie (
            Movie movie )  [inline]
```

Here is the caller graph for this function:

6.6.1.6 setQuote()

```
void com.example.demo.entity.Quote.setQuote (
            String quote )  [inline]
```

Here is the caller graph for this function:

6.6.1.7 toString()

```
String com.example.demo.entity.Quote.toString ( )  [inline]
```

The documentation for this class was generated from the following file:

- src/main/java/com/example/demo/entity/Quote.java

6.7 com.example.demo.controller.QuoteController Class Reference

Collaboration diagram for com.example.demo.controller.QuoteController:

Public Member Functions

- Quote addQuote (@RequestBody Quote quote)
- List< Quote > addQuotes (@RequestBody List< Quote > quotes)
- Quote quote (@RequestParam(value="show", defaultValue="Default value") String id)
- List< Quote > findAllQuotes ()
- Quote findQuoteById (@PathVariable int id)
- Quote findQuoteByTitle ()
- Quote updateQuote (@RequestBody Quote quote)
- String deleteQuote (@PathVariable int id)

6.7.1 Member Function Documentation

6.7.1.1 addQuote()

```
Quote com.example.demo.controller.QuoteController.addQuote (
            @RequestBody Quote quote )  [inline]
```

Here is the call graph for this function:

6.7.1.2 addQuotes()

```
List< Quote > com.example.demo.controller.QuoteController.addQuotes (
            @RequestBody List< Quote > quotes )  [inline]
```

Here is the call graph for this function:

6.7.1.3 deleteQuote()

```
String com.example.demo.controller.QuoteController.deleteQuote (
            @PathVariable int id )  [inline]
```

Here is the call graph for this function:

6.7.1.4 findAllQuotes()

```
List< Quote > com.example.demo.controller.QuoteController.findAllQuotes ( )  [inline]
```

Here is the call graph for this function:

6.7.1.5 findQuoteById()

```
Quote com.example.demo.controller.QuoteController.findQuoteById (
            @PathVariable int id )  [inline]
```

Here is the call graph for this function:

6.7.1.6 findQuoteByTitle()

```
Quote com.example.demo.controller.QuoteController.findQuoteByTitle ( )  [inline]
```

Here is the call graph for this function:

6.7.1.7 quote()

```
Quote com.example.demo.controller.QuoteController.quote (
            @RequestParam(value="show", defaultValue="Default value") String id )  [inline]
```

Here is the call graph for this function: Here is the caller graph for this function:

6.7.1.8 updateQuote()

```
Quote com.example.demo.controller.QuoteController.updateQuote (
            @RequestBody Quote quote )  [inline]
```

Here is the call graph for this function:

The documentation for this class was generated from the following file:

- src/main/java/com/example/demo/controller/QuoteController.java

6.8 com.example.demo.repository.QuoteRepository Interface Reference

Inheritance diagram for com.example.demo.repository.QuoteRepository:

Collaboration diagram for com.example.demo.repository.QuoteRepository:

Public Member Functions

- List< Quote > findByMovie (Movie movie)

6.8.1 Member Function Documentation

6.8.1.1 findByMovie()

```
List< Quote > com.example.demo.repository.QuoteRepository.findByMovie (
            Movie movie )
```

Here is the caller graph for this function:

The documentation for this interface was generated from the following file:

- src/main/java/com/example/demo/repository/QuoteRepository.java

6.9 com.example.demo.service.QuoteService Class Reference

Collaboration diagram for com.example.demo.service.QuoteService:

Public Member Functions

- Quote saveQuote (Quote Quote)
- List< Quote > saveQuotes (List< Quote > Quotes)
- List< Quote > getQuotes ()
- Quote getQuoteById (int id)
- String deleteQuote (int id)
- Quote updateQuote (Quote Quote)

6.9.1 Member Function Documentation

6.9.1.1 deleteQuote()

```
String com.example.demo.service.QuoteService.deleteQuote (
            int id )  [inline]
```

Here is the caller graph for this function:

6.9.1.2 getQuoteById()

```
Quote com.example.demo.service.QuoteService.getQuoteById (
            int id )  [inline]
```

Here is the caller graph for this function:

6.9.1.3 getQuotes()

```
List< Quote > com.example.demo.service.QuoteService.getQuotes ( )  [inline]
```

Here is the caller graph for this function:

6.9.1.4 saveQuote()

```
Quote com.example.demo.service.QuoteService.saveQuote (
            Quote Quote )  [inline]
```

6.9.1.5 saveQuotes()

```
List< Quote > com.example.demo.service.QuoteService.saveQuotes (
            List< Quote > Quotes )  [inline]
```

Here is the caller graph for this function:

6.9.1.6 updateQuote()

```
Quote com.example.demo.service.QuoteService.updateQuote (
            Quote Quote )  [inline]
```

Here is the call graph for this function: Here is the caller graph for this function:

The documentation for this class was generated from the following file:
